

- **Made of EPDM rubber, resistant to water and steam**
- **10 kV high-voltage resistance: suitable for insulation protection of cables under 10 kV**
- **Strong waterproof performance; can be used in underwater environments**

EPDM Self-Amalgamating Tape

Key Features

- **10 kV insulation**
- **EPDM rubber**
- **Approximate length: 4.5 m**
- **High elongation**
- **Chemical resistance**
- **Suitable for underwater use**
- **Operating temperature: below 80 °C**
- **Model: J-20**
- **Material: EPDM rubber**
